Huron Playhouse to take Hiatus

Huron (OH), -The Board of Directors of The Huron Playhouse announces that the 69th Season has been suspended due to circumstances that prevent the presentation of superior performances this summer.

Over the next 10 months the board and staff are planning to restructure and develop an 18-month operating plan that will make the future brighter and financially sustainable.

The board wishes to extend heartfelt thanks for the recent show of support by several local foundations, as well as the public, with their generous donations. While it was hoped that the 2017 season could take place it has become evident that it would be more prudent to review the operation and make significant improvements in order to reopen in 2018.

All ticket holders will be contacted and public input will be sought concerning the future of The Playhouse.
